

31 January 2017

Dear Parent/Guardian

I am writing to inform you that a psychometric career assessment – **rightcareers4me.com** – will be administered to 5th Year students during the month of February.

The assessments measure values, interests, personality, skills and 6 aptitudes. The results of these tests will provide students and their parents with an in depth psychometric profile which will enable students to scientifically identify the right careers and courses.

A comprehensive personalized Careers Report will be issued to each student and this will be followed by a one to one interview with the Guidance Counsellor to discuss the outcomes of the psychometric profile.

The school has negotiated a special price of €45 (normally €100). If you would like your son/daughter to have the benefit of this assessment, please pay through Easy Payment Plus before **10 February 2017**.

I would strongly encourage you to take advantage of this opportunity. It will enable your son/daughter to make informed and confident decisions about their future.

Yours sincerely

Anne Ryan
Guidance Counsellor
