

22 January 2018

Dear Parent/Guardian

I am writing to inform you that a psychometric career assessment – RightCareers4me™ – will be administered to 5th Year students during the month of February.

RightCareers4me™ is an online career matching system which helps students to scientifically identify suitable careers and courses. It takes students from being undecided to enabling them to make informed and confident career and course choices.

The assessments measure values, interests, personality, skills and 6 aptitudes. The results of these tests will provide students and their parents with an in depth psychometric profile which will be very beneficial when making career decisions.

A comprehensive personalized Careers Report will be issued to each student and this will be followed by a one to one interview with the Guidance Counsellor to discuss the outcomes of the psychometric profile.

The school has negotiated a special price of €45 (normally €150). If you would like your son/daughter to have the benefit of this assessment, please pay through paypal before **February 2nd 2018**.

I would strongly encourage you to take advantage of this opportunity.

Yours sincerely

Anne Ryan
Guidance Counsellor
