St. Conleth's College Mission Statement

St. Conleth's College aims to foster an environment where our students grow as individuals in every aspect of their lives. As a school we strive to enable each one to arrive at a fully rounded character, inspired by Christian charity and rooted in Gospel values. Being a small, tightly-knit community, our Catholic ethos and family atmosphere underpin our entire educational philosophy. To this end we welcome the continuous support of parents and guardians, recognising their primary role in the students' growth and development.

St. Conleth's seeks to provide a fully rounded Catholic education for all of its students by:

- creating a happy, healthy and safe environment in which all students may develop their own personal gifts and interests, be valued for who they are and experience true equality amongst themselves
- celebrating and deepening our Catholic faith through prayer, liturgy, religion classes, and the general fostering of Christian values
- providing a disciplined environment in which teaching and learning can take place in a spirit of co-operation
- promoting academic excellence and habits of perseverance in students
- equipping students with the necessary moral, social and cultural qualities useful for adult life, and offering them guidance regarding their future role and career in society
- fostering dignity in the workplace and encouraging respect among, and between, teachers, staff and students
- ensuring that students and staff of other churches and faiths are respected and encouraged in their religious beliefs and practices
- respecting students and staff who follow other beliefs and philosophies, and with whom we share common values of equality, peace, justice, dialogue and concern for the less fortunate members of society
- creating a sense of belonging to our local Parish, and also to the wider community around us and in countries of the developing world, and encouraging our students' involvement in social and religious activities

All activities run on a rotation and students are encouraged to explore, interact, and have fun. Students are then accompanied to their classrooms at 8.45a.m. for morning registration.

St. Conleth's College No Smart Device Voluntary Code

Dear Parents/Guardians,

You may be aware from news coverage that schools across the country have introduced a 'No Smart Device Voluntary Code' for parents of children in primary schools. The JSPA, in conjunction with school management, are proposing that St. Conleth's Junior School would consider such an initiative.

OVERVIEW

In summary this initiative asks parents to agree not to purchase a Smart Device (Watch or Phone) for their child while they are in the Junior School.

WHY A NEED FOR THIS STEP?

There is a growing body of research on the negative effects which unsupervised access to the internet and social media sites may have on children under the age of 14 years. See for example the CyberSafe Kids Annual Report 2021/2022.

Concerns include exposure to pornography; negative/vile attitudes based on difference of any kind (gender, sexual orientation, race etc.); inappropriate sharing of photos; cyber-bullying; and distress. We would query whether it is a positive experience for children in the Junior School to be on social media sites - noting that the age of consent for these sites is in any event typically 13. A decision was made in September 2023 in our Secondary School which involves students 'bagging' their phone/watch in lockable pouches for the school day. After 6 months of implementation, feedback from the school management is entirely positive. We believe that this is a timely initiative which will help to protect children from the potentially negative sides of the internet and social media.

THE VOLUNTARY CODE - KEY POINTS

The initiative offers parents/guardians the opportunity to enter a collective agreement not to purchase a Smartphone/watch for their child until they are finished in Junior School. This can reduce peer pressure to have a phone/watch and provide parents and guardians with peer support when responding to a child's requests for a Smartphone/watch. It is not intended that the initiative would preclude parents or guardians from providing a child with a "regular" mobile phone/watch which has no internet access, for communication/personal safety reasons.

Finally, we recognise and respect that parents and guardians may have different views in relation to this initiative and re-emphasise that the initiative is entirely voluntary.

NEXT STEPS

Please take 2 minutes to complete [this form](#) and discuss your decision with your child.

We will treat this information confidentially and share a summary of the results in due course with parents and guardians.

Yours sincerely,

Junior School Parents' Association and School Management Team
